This document only concerns vehicles marketed in the UK. The information on models and their characteristics corresponds to a definition at the time of printing of this document; it cannot be considered as contractual. Leapmotor International BV reserves the right to change the characteristics of the models presented without prior notice, without being obliged to update this document.

^The LEAP-GRANT saving (the "Saving") is a £1,500 saving towards the on-the-road OTR of a new Leapmotor B10 (67.1 kWh) only (the "Qualifying Vehicles"). The saving is offered by Leapmotor International Business S.P.A. at the point of order and is available to private retail customers and UK residents only. Excludes fleet, business and Motability sales. It applies to the Qualifying Vehicles ordered between 08 October 2025 and 31 December 2025 inclusive from authorised Leapmotor retailers. The saving will be deducted from the on-the-road OTR of the Qualifying Vehicles and cannot be redeemed for cash or combined with any other retail offer unless explicitly stated.

## Technical specification and data

### ENGINE

| | |
|---|---|
| Fuel Type | **Electric** |
| Battery Capacity | **67.1 kWh** |
| Max. Power Output | **215 HP** |
| Peak Torque | **240 Nm** |

### TRANSMISSION

| | |
|---|---|
| Gearbox | **Automatic** |
| Drive Type | **RWD** |

### PERFORMANCE

| | |
|---|---|
| Acceleration 0-62 mph | **8.0 seconds** |
| Top Speed | **105 mph** |

### FUEL CONSUMPTION & EMISSIONS*

| | |
|---|---|
| Electric Consumption (WLTP, combined) | **17.4 kWh/100km** |
| CO2 emissions | **0 (g/km)** |
| BIK rate | **3%** |
| Electric Range (WLTP, combined) | **270 miles** |

Fuel economy and CO2 results for the fully electric Leapmotor B10 (218PS). Mpg (l/100km): N/A. CO2 emissions: 0g/km. Electric range up to 270 miles (WLTP). For comparison purposes only. Range achieved in real world may differ according to factors such as accessories fitted, battery condition, weather, driving style and vehicle load.

WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and $CO_2$ values of other cars tested to the same technical standard. The fuel consumption achieved, and $CO_2$ produced, in real-world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre- and post-registration), variations in weather, driving styles and vehicle load. For more information, contact your local Leapmotor Retailer.

Leapmotor reserves the right to change, amend or withdraw this offer at any point in time. Correct at time of print.
